Permit To Deliver Programs To Foreign Broadcast Stations

re: Actions Taken

The Commission, by its International Bureau, took the following actions pursuant to delegated authority. The effective dates of the actions are the dates specified.

INFORMATIVE

325-RWL-20161005-00003

Entravision Communications Corporation

Granted on November 21, 2016, subject to conditions, application for Section 325 (c) permit to deliver programming to Station XHRIO-TV, Matamoros, Tamaulipas, Mexico by Entravision Communications Corporation. The station is licensed to TV Norte, S.A. de C.V. The station operates on digital Channel 26 with an authorized power of 250 kW.

Grant of this permit is conditioned upon the Mexican stations operation in full compliance with applicable treaties and related provisions concerning electrical interference to U.S. Broadcast stations.

This authorization is predicated on the use of a foreign station assignment, which must abide by the terms of the 1962 United States-Mexico VHF Television Agreement. Hence, this program authorization applies only to the specific foreign station facilities which are currently on file with the Commission as having been officially coordinated by the Secretaria de Comunicaciones y Transportes (SCT) in Mexico and subsequently approved by the Commission for operation. If the transmitter coordinates or technical operating parameters of the foreign station are altered subsequent to this authorization or are found to be different from those currently on file and approved by the Commission, this program authorization will be subject to immediate termination without right to hearing.
